

# Changing A Nation One Man at a Time

## The Condition of Men In America

- 90% of all major crimes in America are committed by men
- 100% of all rapes in America are committed by men
- 95% of all burglaries in America are committed by men
- 91% of all abuse cases against children are committed by men
- 94% of all drunken drivers are men

## Our Mission

Has there ever been a greater opportunity for the church to show the world what men were created to be? Our mission is to help the churches of America win the battle for the souls of men.

## The Keys to Our Success

Some thoughts about why God is using us so effectively:

1. **Our ministry is rooted in prayer.** The last thing in the world The Evil One wants is strong, godly men leading their homes, their churches, and their nation. Our prayer team is critical for this fight.
2. **The timing is right.** A new age is dawning. A genuine awakening of the church to its failure to focus on discipling men is taking place right now across America and in the PCA.
3. **God has uniquely prepared Gary for this work.** His passion and speaking ability ignite men's devotion to Christ and his practical wisdom shows them how godly masculinity is lived out on a daily basis. His church planting experience training leaders and equipping members to use their gifts has perfectly prepared him to train men's ministry leadership teams.
4. **Our ministry efforts follow a careful, strategic plan.** By speaking at men's events, Gary builds relationships with key churches, equips their men's ministry leaders, and establishes a beach-head from which he can reach the churches in the surrounding area. Gary is strategically committed to the local church, because that is where men need to connect, and to equipping leaders, because only they can build a long term, sustainable, disciple-making ministry for men.
5. **God has put Gary in a position of influence.** Gary's success as a church planter, role in the PCA as the men's ministry coach, position on the speaking faculty of Man In the Mirror, and involvement in the Doctor of Ministries program of Reformed Theological Seminary give him a platform of respect and visibility inside and outside his denomination.
6. **God has provided our ministry with faithful financial partners who recognize its strategic importance.** Stepping up to the challenge of funding such a ministry, many have re-doubled their determination to support us at a time when many non-profits are closing their doors.
7. **A compelling vision drives us.** Until every church in America is equipping its men with a godly vision of manhood, forging them into a spiritual band of brothers, and helping them lead their homes, churches, and communities, our job is not done. Please continue to help us as you can.
